IMPORTANT SAFEGUARDS

When using an electrical appliance, especially when children are present, basic safety precautions should always be taken, including the following:

1. **Read all instructions.**
2. **UNPLUG FROM OUTLET WHEN NOT IN USE AND BEFORE CLEANING. Allow to cool before cleaning or handling or putting on or taking off parts**
3. Store products indoors when not in use or use recommended outdoor cover.
4. **DO NOT** operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Contact our consumer care department for troubleshooting and replacement parts.
5. **CAUTION:** To protect against electric shock do not immerse cord, plug or temperature probe cord in water or other liquids.
6. **CAUTION:** Risk of electric shock. Keep extension cord connection dry and off the ground.
7. **DO NOT** let cord hang over edge of table or touch hot surfaces.
8. **DO NOT** touch hot surfaces. Use handles.
9. **CAUTION:** hot surface. This symbol means: the surface of this product is hot, please be careful when touching.
10. Close supervision is necessary when any appliance is used by or near children.
11. Children should be supervised to ensure that they **DO NOT** play with the appliance.
12. The use of accessory attachments not recommended by Cuisinart may cause injury.
13. Never use appliance without the grill grate securely in place on base.
14. **DO NOT** place appliance on or near a hot gas or electric burner, or in a heated oven.
15. **DO NOT** move the appliance when it is in use or contains hot oil or other hot liquids.
16. **DO NOT** use this appliance for anything other than its intended purpose.
17. To avoid burns, use extreme caution when removing accessories or disposing of hot grease.
18. Always ensure cord is not damaged and secure to the appliance first, then plug cord into the wall outlet. To disconnect, ensure there are no red lights on the control panel by pressing "CANCEL", then remove plug from wall outlet.

19. Fuel, such as charcoal briquettes, must not be used with this appliance. Only use food-grade cooking wood pellets, such as apple wood pellets.
20. **FOR OUTDOOR USE ONLY:** Included Smoking Function, cannot be used in house.
21. Use only on properly grounded outlet. Ensure the outdoor outlet is GFCI-protected.
22. Oversize foods or metal utensils must not be inserted in electric grill as they may create a fire or risk of electric shock.
23. A fire may occur if the electric grill is covered or touching flammable materials such as curtains, draperies, or walls when in operation. Do not store any items on top of the appliance when in operation. Do not operate under wall cabinets.
24. **DO NOT** clean with metal scouring pads. Pieces can break off the pad and touch electrical parts involving a risk of electric shock.
25. **DO NOT** store any materials, other than manufacturers recommended accessories, in this oven when not in use.
26. **DO NOT** place any of the following materials in the electric grill: paper, cardboard, plastic, and similar products.
27. This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
28. **DO NOT** attempt to defeat the interlock.
29. Caution: hot surface. This symbol means: the surface of this product is hot, please be careful when touching 
30. To reduce the risk of fire, **DO NOT** pull out the Smoke Drawer while pellets are smoking. Please note that some smoke will seep out of the vents and front of Smoke Drawer. That is normal.
31. The appliance is suitable for outdoor use;
32. The supply cord should be regularly examined for signs of damage, and if the cord is damaged, the appliance must not be used;
33. The appliance must be supplied through a residual current device (RCD) having a rated residual operating current not exceeding 30 mA;
34. The appliance is to be connected to a socket-outlet having an earthing contact **(for class I appliances)**.
35. The appliances are not intended to be operated by means of an external timer or separate remote-control system.
36. The smoking box shall be in position before operating the appliance
37. Turn off and unplug the appliance and allow it to cool completely before cleaning.

WARNING: Maximum height underneath the lid fan is 10 cm. **DO NOT** cook foods in the unit that will obstruct the fan.

WARNING: DO NOT use steel utensils on the grill surface. They will damage the nonstick ceramic coating and expose the base material to risk of rusting. Use tools that are safe on nonstick surfaces like nylon and silicone.

SPECIAL CORD SET INSTRUCTIONS

• Use extension cord marked for outdoor use ONLY. Longer detachable power-supply . . . See label for outdoor marking.

• If a longer extension cord is used:

1. The marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance. (20 Amp).
2. The cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over unintentionally;
3. The appliance is of the grounded type, the cord set or extension cord should be a grounding-type 3-wire cord.

• Outdoor extension cords should be used with outdoor use products and are surface marked with the suffix letter "W" and with a tag stating "Suitable for use with outdoor appliances."

• Ensure all connection points from power source to grill are kept dry and off the ground.

• We recommend to store the product indoors when not in use - out of the reach of children.

• **DO NOT** clean this product with water sprayer or the like.

	No Light on Flame	No smoke functions are currently being used. Safe to add pellets.

DIGITAL TIMER INDICATION

- In cooking time selection, First 2-digit represents for hour, the last two-digits for minutes. For example: 04:15 represents 4hrs 15minutes
- In preheat stage, the cooking time is not shown.
- After Ready, the cooking time is displayed out. if the cooking time more than 1hour, First 2-digit presents for hour, the last two-digit for minute. For example: 02:15 represents 2hrs 15minutes. however, if it is less than 1hour, First 2-digit represents for minute, the last two-digit for second. For example: 02:15 equals 2minutes and 15 seconds. The colon ":" will be flashing in count-down or count up.

USING THE PROBE THERMOMETER

STEP 1

• Begin by plugging the probe thermometer into the jack in the bottom right corner of the control panel.

• Once you plug in the probe, a number will display above "PROBE CURRENT TEMP" on the digital display.

NOTE: You can use the probe as an internal temperature checker without setting a target temperature

STEP 2

• Press the "PROBE" button to jump directly to temperature input when needed.

• Use the dial to set the probe to your desired internal food temperature. Press dial to confirm.

• Insert the probe horizontally into the centre of the thickest part of the meat. Do not angle the probe while inserting it.

• When the probe has reached the target temperature, the grill will switch to Keep Warm mode to ensure your food does not overcook.

ADDING SMOKE ON DEMAND

STEP 1

• Pull out the smoke box which is located to the left of the digital control panel.

STEP 2

• Fill the smoke drawer with desired amount of pellets. Do not fill above marked fill line inside the smoke drawer. Only add pellets at the beginning of your cook.

STEP 3

• In any cooking mode you can add smoke by pressing the SMOKE button after the cooking countdown timer has begun. This will pause the cook timer and start the 7-min pellet ignition cycle. After ignition, your cook will resume.

NOTE: It is normal for some smoke to be seeping out of the Smoke Drawer.

WARNING: Do not open Smoke Drawer during pellet ignition cycle and while pellets are actively burning.

USING THE MOISTURE CUP

STEP 1

• Use a measuring cup to add liquid to the moisture cup while it is in place. Do not fill above marked fill line inside the cup.

MAX FILL LINE

NOTE: You can experiment adding different liquids. Some popular options are water, wine, or juice.

COOKING FUNCTIONS

GRILL

• Great for high heat cooking and searing up to 230°C. There are 3 heat settings for grilling: LOW, MED, HI.

SMOKER

• Low and slow cooking for tender, fall-off-the-bone results with rich smoky flavour.

AIR FRY

• For crunchy and crispy results with little to no oil.

BROIL

• Great for melting cheese and adding a finishing char to meat.

ROAST

• For perfectly browned and caramelized results on larger cuts.

BAKE

• Bake frozen pizzas, desserts, and more.

DEHYDRATE

• Create tasty beef jerky or dehydrated fruits for a fun snack.

KEEP WARM

• Keep food warm and ready to serve as you wait for the rest of the meal to finish cooking.

SMOKE ON DEMAND

• Press the SMOKE flavour button to infuse rich, smoky flavour during any cooking mode. [Smoke is automatically enabled when using the Smoker mode].

BEFORE FIRST USE

1. Remove all packaging materials

2. Place your *FlavourBoost* 8-in-1 Outdoor Electric Grill on a flat, level surface.

3. Plug grill in to a 3-prong GFCI grounded outlet that is rated for 20 amps.

4. Install grill grate on the base and put grease cup in place on the back of the unit.

IF USING AN EXTENSION CORD

• Use extension cord marked for **outdoor use ONLY**. See label for outdoor marking.

• Inspect the cord prior to use. Do not use if damaged.

• See label on cord for specific wattage. (The appliance requires 1,800 W).

• Do not plug in more than specified number of watts.

• Keep children and pets away from plugged in cords.

• Do not bend or coil cords when in use.

• Cords can be a trip hazard. See that extension cords are visible and not running across highly trafficked areas.

• **CAUTION:** A wet extension cord could cause a short in your electrical devices or lead to electric shock. Take extra precautions to keep your cord dry and avoid letting your cord rest in water or snow.

STARTING THE GRILL

STEP 1

• Plug the grill into a proper 3-prong outlet. The grill will turn on once it is plugged in.

STEP 2

• Rotate the dial to select desired cooking mode. Press dial to confirm.

STEP 3

• TIME should now be flashing on screen. Turn the dial to set your cooking time. Press dial to confirm.

STEP 4

• TEMPERATURE should now be flashing on screen. Turn the dial to set your cooking temperature. Press dial to confirm.

STEP 5

• Once all selections are made, dial will be solid red. This indicates the grill is starting to pre-heat.

CLEANING & MAINTENANCE

Remember to clean the grill thoroughly after each use. Allow the grill and any accessories to cool completely before attempting to clean. NOTE: grill plate is not dishwasher safe.

• Ensure grill is unplugged and disconnected from all power sources before attempting to clean the unit

• Remove grill plate and basket. To clean both components, hand-wash in warm, soapy water with a non-abrasive sponge.

• Wipe off the probe thermometer with a damp cloth. Do not submerge in water or place in dishwasher.

• Remove the smoke drawer and dispose of ashes and leftover pellets. Use a wire brush to clean the metal.

• Remove the moisture cup and dispose of remaining liquid. The cup is dishwasher safe.

• Allow the grease to cool in the grease tray and then dispose. Wash the grease tray with warm, soapy water. Use a disposable grease liner for easy cleaning.

• Wipe down the lid interior with a damp cloth.

• Make sure all components are dried completely prior to storage.

• Any other servicing should be performed by an authorized service representative.

Operation	Why won't my unit turn on?	• Make sure your unit is plugged into a functional outlet. • Make sure the grill plate is securely in place in the unit. • Call Consumer Service at **1800 566 567**.
Cooking	Why are fried foods not crispy or fried evenly?	• Make sure food is spread evenly in a single layer in the air fry basket with no overlap. If food still overlaps, toss or flip food halfway through cooking cycle. • Put food in for additional cooking time. Check frequently until the food reaches the desired level of doneness. • Some foods may require more oil than others. If not crispy enough, lightly spray, brush, or rub more oil on the food.
	Excessive smoke leakage when using the wood pellet smoke drawer.	• Make sure vent and chimney above the smoke drawer are clear from blockages. Use a pipe cleaner to remove any debris. • Check gasket seal around the edge of lid for any cracks or damages.
Temperature Probe	Inconsistent readings	• Ensure the probe wire is not damaged or burned. • Make sure the temperature probe is inserted into the thickest part. • Make sure the probe is not poking through your food.
Cleaning	Fan blade	• Wipe with a damp cloth to remove any dust, debris or grease accumulation if you begin to hear excessive noise coming from the fan.

RECIPES

SMOKER MODE

Chicken Thighs

INGREDIENTS

1 cup	Pellets
0.45 kg	Boneless-skinless chicken thighs
1 tablespoon	Vegetable oil
2 teaspoon	Kosher salt
1 teaspoon	Ground black pepper
1 cup	Barbecue sauce

INSTRUCTIONS

1. Fill smoke drawer cup with pellets to fill line and insert into grill. Select SMOKER mode. Set *FlavourBoost* temperature at 135°C for 2 hours. Press START and grill will start pre-heat and smoke cycles.

2. In a large bowl combine chicken thighs, oil and seasoning. When prompted by grill, add chicken thighs, layering left to right and back to front. Close lid and cook cycle will begin.

3. At 1 hour mark, glaze chicken with barbecue sauce and cook additional hour or until tender. Minimum internal temperature is 74°C for chicken, however smoking to a higher temperature (80-90°C) will create better texture and flavour.

SMOKER MODE

Pork Shoulder

INGREDIENTS

1.8-2.3 kgs	Pork shoulder, boneless
2 tablespoons	Kosher salt
1 tablespoon	Crushed black pepper
¼ cup	Sherry vinegar & water mix
3 sprigs	Thyme or rosemary
½ cup	Pellets

INSTRUCTIONS

1. Pat pork shoulder dry and thoroughly coat with salt and pepper. Let pork air chill in refrigerator overnight on a non-reactive pan.

2. Fill smoke drawer cup with pellets to fill line and insert into grill. Fill moisture cup with ½ sherry vinegar and ½ water and add some herb sprigs. Select SMOKER mode. Set *FlavourBoost* temperature at 120°C. Plug in probe, insert into thickest part of pork and set to 90°C. Press START and grill will start ignition cycle for wood pellets.

3. When prompted by grill, place pork centred on grill plate. Close lid and cook cycle will begin. When probe hits internal temperature, grill will turn off. Remove from grill and let pork rest for 10 minutes before slicing.

SMOKER MODE

Beef Brisket

INGREDIENTS

1 cup	Pellets
1 each	Brisket flat
1 tablespoon	Kosher salt
1 tablespoon	Ground black pepper

INSTRUCTIONS

1. Fill smoke drawer cup with pellets to fill line and insert into grill. Select SMOKER mode. Set *FlavourBoost* temperature at 135°C. Plug in probe and set to 75°C. Press START and grill will start ignition cycle for wood pellets.

2. Trim fat to 0.6 cm thick. Mix salt and pepper together and generously season both sides of brisket. When prompted by grill, insert probe into thickest part of brisket and place on centre of grill. Close lid and cook cycle will begin.

3. When probe hits internal temperature, grill will turn off, wrap brisket completely in foil and reinsert probe, setting temperature to 90°C. Place brisket back on grill, close lid, and restart SMOKER at 135°C (canceling pre-heat). When temperature is 90°C internal temperature is reached, remove brisket from grill and let rest for at least 20 minutes and up to one hour before unwrapping and slicing.

SMOKER MODE

Baby Back Ribs

INGREDIENTS

1 cup	Pellets
1 each	Baby back rib back
1 teaspoon	Vegetable oil
3 tablespoons	Rib rub
1 cup	Barbecue sauce

INSTRUCTIONS

1. Fill smoke drawer cup with pellets to fill line and insert into grill. Select SMOKER mode. Set *FlavourBoost* temperature at 135°C for 3 hours. Press START and grill will start pre-heat and smoke cycles.

2. Pat ribs dry with paper towels. Remove membrane from back of ribs. Generously coat ribs with oil on both sides. Evenly season both sides of ribs with rub.

3. Ribs should fit if placed, meat side up, diagonally across grill plate. For larger ribs, you may need to cut in half to fit inside grill. Close lid and cook cycle will begin.

4. At 1 hour mark, tear a piece of aluminium foil twice as long as ribs. Spread half of sauce in centre of one half of foil. Place ribs meat side on sauce and drizzle remaining sauce on bone side of ribs. Fold aluminium foil over ribs to completely cover ribs and crimp sides for a tight wrap. Place wrapped ribs in grill, bone side up, and cook additional two hours or until tender.

SMOKER MODE

Mac-N-Cheese

INGREDIENTS

1 cup	Pellets
450 grams	Macaroni (cooked ahead)
1 cup	Bechamel sauce
230 grams	Shredded cheddar cheese
1	Nonstick spray
½ cup	Italian bread crumbs
3 tablespoons	Butter, cubed

INSTRUCTIONS

1. Fill smoke drawer cup with pellets to fill line and insert into grill. Select SMOKER mode. Set *FlavourBoost* temperature at 165°C and press START. Grill will start ignition cycle for wood pellets and pre-heat.

2. Warm bechamel sauce and fold in cheese stirring to combine. In a large bowl add macaroni and cheese sauce. Use a rubber spatula to thoroughly mix together. Using an oven-safe baking pan or cast-iron skillet, spray pan with nonstick spray then add macaroni mixture. Spread bread crumbs evenly over top of macaroni and stud with butter.

3. Place macaroni in centre of grill and cook for 15-20 minutes, until macaroni mix is bubbling and bread crumbs are toasted.

ROAST MODE

Spatchcock Chicken

INGREDIENTS

1	Chicken
1 tablespoon	Kosher salt
1 teaspoon	Ground black pepper

INSTRUCTIONS

1. Butcher the chicken by removing the spine and rib bones, press down flat and remove keel bone. Season both sides generously with salt and pepper. Lay flat on a sheet tray, skin side up, and refrigerate uncovered while setting up grill.
2. Remove moisture cup and add liquid to the fill line with water or chicken stock and place back in grill. A couple herb stems will help add flavour while moisture cup adds flavour and keeps food from drying out.
3. Select ROAST mode temperature 205°C for 20 minutes. Press START and grill will start pre-heat. When prompted READY, lay chicken on grill skin side up and close lid to start cooking. Set temperature to 75°C and insert probe into the thickest part of the chicken breast. At end of cycle make sure chicken is cooked to desired internal temperature and skin crispiness. Add additional time if needed. Rest chicken 5 minutes before serving.

ROAST MODE

Roasted Root Vegetables

INGREDIENTS

1.4 kgs	Assorted root vegetable (beets, carrots, parsnips, sweet potatoes, etc.), medium diced

INGREDIENTS

2 each	Sirloin steaks
1 tablespoon	Vegetable oil
1 tablespoon	Kosher salt
1 teaspoon	Ground black pepper

INSTRUCTIONS

1. Select BROIL (Sear) mode. Set the grill temperature to HI for 10 minutes. Press START and grill will start pre-heat.

2. Place steak on cutting board, coat with oil and season generously with salt and pepper. When prompted by grill, add steaks, close lid and start cooking cycle.

3. At halfway point (5 minutes) open lid, flip steaks with tongs and close lid to finish cooking. Once steak has reached an internal temperature of 60°C (in the thickest part) rest steak on a cutting board for 5-10 minutes before slicing. Resting the steak allows juices to redistribute and prevents dryness.

BROIL MODE (Sear)

Broiled Scalloped Potatoes

INGREDIENTS

450 grams	Heavy cream
1	Garlic clove, pressed
½ teaspoon	Kosher salt
¼ teaspoon	Black pepper
3	Thyme or Rosemary sprigs
900 grams	Dutch cream potatoes, thin sliced
110 grams	Shredded cheddar

INSTRUCTIONS

1. In a large heavy-bottomed saucepan, combine cream, garlic, salt, pepper and thyme. Add sliced potatoes and make sure they are completely covered by cream. Heat to a simmer and cook until potatoes are tender, approximately 45 minutes. Stir occasionally to avoid cream scorching.

2. Set grill to BROIL on HI and pre-heat. Check seasoning and add more salt or pepper if needed. Strain potatoes, removing sprigs, but saving cream. Add potatoes evenly to a buttered baking dish and cover with cream. Top with shredded cheese. Add to grill and broil for 10 minutes, until cheese is melted and bubbling. Allow to cool for 5 minutes prior to serving.

BROIL MODE (Sear)

Charred Prawns

INGREDIENTS

900 grams	16-20 Prawns, peeled, deveined
2 tablespoons	Coconut oil
2 tablespoons	Lebanese 7 Spice seasoning seasoning
1	Shallot
1	Jalapeno
1 tablespoon	Lime juice
1	Nonstick spray

INSTRUCTIONS

1. If frozen, fully defrost Prawns and rinse in colander. In medium bowl whisk coconut oil and Lebanese 7 Spice seasoning to create a wet rub. Cut shallot into julienne strips. Cut jalapeno into thin rounds leaving seeds if you want more heat.

2. Toss prawns in wet rub using hands to coat all prawns. Add shallot, jalapeno, and lime juice and toss to coat completely. Lay prawns mix evenly across ¼ sheet pan lightly coated with nonstick spray.

3. Select BROIL mode HI for 10 minutes. Press START and grill will start pre-heat. When prompted add food and close lid to start cooking. Turn prawns at 5-minute halfway point for even cooking. At the end of cycle remove prawns from grill and serve with preferred sides.

BROIL MODE (Sear)

Broiled Broccoli Caesar

INGREDIENTS

900 grams	Fresh broccoli
230 grams	Creamy Caesar dressing
1 tablespoon	Lemon juice
¼ cup	Spring onions, chopped
2 teaspoons	Crushed black pepper
1 cup	Shredded parmesan
1 teaspoon	Crushed red pepper

INSTRUCTIONS

1. Boil broccoli in a large pot of salted water for 2-3 minutes. Quickly drain broccoli and shock in a bowl of ice water to stop cooking process. Remove from ice water and lay broccoli on sheet pan lined with paper towels.

2. In a large bowl combine dressing, lemon juice, spring onions crushed black pepper and ½ cup parmesan. Add broccoli and toss to combine. Place broccoli in nonstick pan and top with remaining parmesan and crushed red pepper.

This warranty applies only to products used for household or domestic purposes and is valid for 3 years from the date of purchase, after which it expires and has no further effect.

Should you experience any operating difficulties refer to the FAQ in this booklet or website for tips on how to use your product.

Please retain your **Purchase Receipt** as proof of purchase in order for your warranty entitlement to be valid. This document must be presented in the event of making a claim under the terms of the Cuisinart Warranty Policy.

During the warranty period Cuisinart will repair or replace (at our discretion) any defective product. However, if the product includes a number of accessories, only the defective part or relevant accessory will be replaced. Cuisinart reserves the right to make minor adjustments to fix any defect instead of replacing the entire product or accessory. Packaging, instructions, recipe books etc. will not be replaced unless faulty. A product presented for repair may be replaced by a refurbished product of the same type rather than being repaired. Refurbished parts may be used to repair the product.

If a spare part is required under warranty it will be shipped to the customer or retailer at No Charge.

In the event of a product or accessory being replaced during the warranty period, the guarantee on the replacement product or accessory will expire 3 years for household or domestic use (or 3 months for commercial use) from the original purchase date.

This warranty does not include or cover the following:

- Defects caused by the product not being used in accordance with instructions;
- Defects caused by accidental damage;
- Defects caused by misuse or negligent handling of the product;
- Defects caused by the product not being maintained or cleaned according to instructions;
- Defects caused by being tampered with by unauthorised persons;
- Defects which are normal or fair wear and tear;
- Freight or any other costs incurred in making a claim;
- Consumable items or accessories that by their nature and limited lifespan require periodic renewal (such as filters, seals, blades or related accessories, such as trays, racks or utensils);
- Products serviced or modified other than by Cuisinart or an authorised Cuisinart representative;
- To any claims made beyond 12 months if the filament of the light bulb breaks i.e. the light bulb has burned out;
- Exposure of the product to abnormally corrosive conditions;
- Any product which has its serial number or appliance plate removed or defaced;
- To any claims made beyond 3 years from the date of purchase if the product is used in household or domestic applications.
- Products purchased from any person who is not a retailer serviced by Conair's authorised distributors, overseas retailers, parallel importers or purchased second hand.

The benefits given to you by our warranty are in addition to other rights and remedies under the Australian Consumer Law.

In Australia our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

To make a warranty claim, return your product to the place of purchase with your original receipt as proof, we recommend keeping a copy. If you cannot return it, contact Cuisinart Customer Service for assistance.
