GETTING STARTED

- **Wash Before First Use:** Clean your FusioneElite+ Nonstick Stainless Cookware with warm, soapy water, rinse, and dry thoroughly.
- **Preheat for Best Results:** Before cooking, heat the pan for about 2 minutes over medium low heat. A properly heated pan improves searing, prevents sticking, and preserves the nonstick surface.
- **Healthier Cooking, Easy Cleaning:** When cooking with your Cuisinart® Nonstick Cookware, you do not need to add oil or butter to prevent foods from sticking. If you wish to enhance the flavour and appearance of foods, you need add only a minimum amount to the nonstick surface of your cookware. Use of cooking spray is not recommended as it may cause buildup of residue on the cooking surface.
- **Heat Guidelines:** Use low to medium heat for most cooking. Medium high is fine for quick searing. Cookware is oven-safe up to 260°C; glass lids up to 200°C. Avoid prolonged high heat to maintain nonstick performance.
- **Always** use potholders – handles and pans get hot.
- **Do not** use under grill.

CLEANING & CARE

- Allow the pan to cool before washing.
- Dishwasher safe, but hand-wash recommended to preserve finish. Use warm, soapy water using a non-abrasive sponge and non-citrus dish soap.
- Avoid steel wool or harsh pads.
- For stubborn residue: add 3cm of water and 1 tablespoon of non-lemon dish soap. Simmer for 15 minutes, cool, then clean.

UTENSILS

- Metal utensils are safe for the FusioneElite+ hybrid cooking surface, but silicone, nylon or wood tools will help to extend the lifespan of your cookware.
- Avoid using sharp tools like knives or forks on the cooking surface.

COOKING TIPS

- **Induction:** Center the pan on the burner for best results.
- **Glass cook tops:** Lift, don’t slide, to prevent scratches.
- **Gas burners:** Keep flames under the pan bottom only. If the flame extends up the sides of the pan, energy is wasted and flames may permanently discolor the cookware exterior.
- **Don’t leave unattended:** Overheating or boiling dry can cause damage to the cookware. If a pan boils dry, turn off the heat and let it cool naturally.

STORAGE

- Avoid stacking tightly to prevent scratches; use a rack or soft protectors if nesting.
